CodeWeek.

MASSIVE OPEN ONLINE COURSE

BOOTCAMP

10-OCT-2022

The **EU Code Week Bootcamp MOOC** inspires all teachers in Europe and beyond to take their first steps as digital creators. Whether you want to teach coding, programming and computational thinking in your classroom, this MOOC offers free access to professional development opportunities.

The MOOC allows you to:

- Explore EU Code Week website and resource.
- Integrate coding, programming and computational thinking activities in teaching and learning.
- Examine example of unplugged coding activities in the classroom.
- Discover the benefits of integrating robotics, tinkering and making into lessons.
- Recognize different approaches in the implementation of AI in the classroom.
- Exchange good practice with like-minded colleagues.
- Understand the importance of inclusion, equity and equality in the classroom.

Key information:

- **Target audience:** pre-primary, primary and secondary school teachers and anyone interested in using coding and programming in the classroom.
- **Start date:** 10 October 2022
- **End date:** 16 November 2022
- **Weekly commitment:** 4-5 hours
- **Total workload:** 17 hours
- **Language:** English
